

“We’ve been  
with them now  
for more than  
seven years.”

We had been looking for a supplier with good genetics and we heard from other people that Total Swine Genetics had good stock. We’ve been with them now for more than seven years.

TSG provides great customer service, no matter what you need, and they’re very easy to work with. Their semen is excellent and I don’t see anyone out there who has better quality than they do.
